Design Experience

JCASTLE MEDIA | Redwood City, CA UX/UI Designer | Digital Content Creator

2015 - Present

- Collaborated with software developers, project managers, and users to create interactive designs that exceeded both business and user expectations.
- Developed high quality deliverables: responsive website mockups, prototypes, and style guides based on analysis of current market trends and verified through user testing.
- Photographed a vast catalog of work with a focus on portraits and landscapes for print.
- Produced and edited a wide variety of shorts, music videos, and commercial content

GG LEAGUES | Chicago, IL UI Designer

2020

- Improved brand efficacy by 83% through typography, color, iconography and logo design.
- Designed and prototyped responsive web mockups that empower players to track their growth and interact with each other in a positive and friendly online community.
- Created a comprehensive design system comprised of all the design components and their standards for use in GG Leagues' responsive site.

MIND OVER MATTER | San Francisco, CA **UI Designer**

2020

 Designed a responsive mental health resource site focused on high school and college students, complete with: logo design, responsive web mockups, high fidelty prototype development, user testing, and style guide.

OFWA | San Francisco, CA UI Designer

2020

 Designed a marketing campaign for the Organization for Food Waste Awareness, complete with: shelf life stickers, logo design, iOS mockups, and high fidelty prototype for the OFWA's landing page.
